## PRODUCT DETAILS

The LED Light system in conjunction with the LED Skylight are covered by the Australian Innovation Parent Application No. 20181010435. The uniquely innovated design allows for natural daylight to illuminate the patio area, while at night time the system operates as a fully functioning lighting system.

## PRODUCT FEATURES

- Available in 5 different configurations to suit the complete range of insulated roofing panels
- Remote Control and Wall-mounted Controller
- Durable translucent PVC extruded sections
- Available in White, Cool and Soft White and RGB
- Easy to install
- Low Voltage Power source
- Dimmable Trimac Power Supply

## PRODUCT SPECIFICATIONS

Manufactured from translucent extruded PVC with added UV stabilizer the LED lights are designed for long, useable lifespan.
